### Extraordinary Ordinary Time

My grandfather was a farmer and every year he would grow his own tomato plants. He planted seeds that grew into small seedlings under grow lights in the basement. When the time came in the spring, he would set the plants into carefully prepared ground. It seemed funny to me at the time; he would plant the small tomato plant next to a stake - - what looked like a branch from a tree, that he would hand-whittle a point onto so that he could drive it into the ground. He was planning for growth, for significant growth of the plants, and put in stakes to match the growth he anticipated. But in those early weeks, it looked very odd - - a small little plant next to this towering support.

Thinking about that now, the tomato and the stake may be a good illustration for the potential of our faith growth during Ordinary

Time, the Church season of summer that is marked with the color green. It is a time of growth. And God has already placed a great support for us to lean on and grow into in the Cross and the Spirit.

Some of our growth may be in a deeper understanding of the ordinary, most common parts of our days. There is much that is ordinary within Ordinary Time. In the heat of the summer, sometimes ordinary tasks become more noticeable (and hot!) - - washing the car, mowing the lawn, cooking a meal. We are aware of them. And that awareness, and heat, raises the possibility of how we might grow in faith through these little things. Writer Kathleen Norris lifts up the potential of small and ordinary tasks. She writes, *“The Bible is full of evidence that God’s attention is indeed fixed on the little things. But this is not because God is a Great Cosmic Cop, eager to catch us in minor transgressions, but simply because God loves us—loves us so much that the divine presence is revealed even in the meaningless workings of daily life.* God is in the midst of the season of the ordinary, beside us, around us, nurturing us each day.

A second perspective on Ordinary Time focuses less on the ordinary and more on the extraordinary. As you probably know, the Church marks the progression through Ordinary Time with Ordinal numbers. (Okay, math teachers, help me out here . . . .) Instead of counting with Cardinal numbers, which count how many, we use Ordinal numbers, which count the order of things, for the church year. Ordinary weeks count forward from the Baptism of the Lord, and then after Pentecost are checked backwards from the last week of the church year. These ordinary Sundays of Ordinary Time, **then point us back to Pentecost.** Isn’t it interesting that these “ordinary” Sundays then, point us back to the most **unordinary** of days when the Spirit came down and the church was formed? When wind and fire whirled in the midst of the disciples and people of many different languages could all understand? So, as we journey through this ordinariness, finding the holiness in each moment of each day, we also simultaneously are able to touch back to Pentecost, to the power and presence of the Holy Spirit’s coming and to the most unordinary things that occurred that day.

Whether your days are filled with the ordinary or the extraordinary - - **or maybe a bit of both** - - may you see and know of the presence of God in the midst of them. In the washing of the dishes, the getting the mail, and preparing of meals and in the wind of the Holy Spirit that blows by you and around you and to you in this extraordinary Ordinary season.

The Grace of our Lord be with you. Thanks for all that you are and do.

Christ’s peace- Diane
